## TALK WALTON FOR LIEUT. GOVERNOR

Senator From Kingston Is Popular in Albany and His Is Only Name Heard So Far as Running Mate for Republican Head of Ticket.

By Telegram to The Freeman.  
Albany, March 8.—(Special).—Senator Charles W. Walton of Kingston is being mentioned as a candidate for the office of lieutenant governor on the Republican ticket. These are the days when prospective candidates are being exploited by their friends and many names are being heard for important state offices. Senator Walton is one of the most popular men in the senate and he is a veteran legislator. While there are numerous candidates for the head of the ticket, the name of Senator Walton is the only one for lieutenant governor which is at present being heard and those who claim to be in touch with matters political declare that it is likely to be the only one.

## COMMUNITY HOUSE BEING CONSIDERED

Center For Girls And Women Especially Is Desired—C. of C. And Clubwomen Co-operate In Seeking Cost And Type Best Suited.

The Chamber of Commerce and the Federation of Women's Clubs are considering the possibility of securing for the girls and women of Kingston and its surrounding territory some form of community house.

There is perhaps nothing of which the lack in Kingston is so serious as that of a building of this kind. The need is for a building fitted with club room and other facilities and having a dormitory.

Such a building would serve as a center for all the women and girls of the community and would also be of special value to women industrial workers coming in from nearby towns.

President Charles R. O'Connor of the Chamber of Commerce has appointed a special committee to investigate and report with respect to the need of such a building, to the cost of providing and maintaining it and to the type of building, facilities, and organization best suited to serve the needs of the community.

Mrs. Frank Thompson, president of the Federation of Women's Clubs, has appointed a similar committee for the Federation. These two committees will cooperate in making their study and recommendations.

The Chamber of Commerce committee is composed of J. C. Klein, chairman; John E. Maher, E. F. Fessenden; Miss Sarah Horton; Willis Hillis; Morris Levy; A. A. Gorman; and W. C. DeWitt.

Chairman Klein has called a meeting of this committee for Thursday evening, 7.30 in the Chamber of Commerce rooms.

## NAVY BLANKETS ARE BARGAINS

The sale of navy blankets will be continued at the Wilkety Fire Station on Fair street, the Central fire station on East O'Reilly street and the Cornell fire station on Abel street, until Wednesday.

The blankets were found to be six to eight inches wide instead of eight inches as advertised. They are forty-four inches in length. The Navy Department guarantees them to be new and unused, all wool and in perfect condition. Quite a number were sold Saturday afternoon. The price is \$3.50 a blanket. Anyone who makes a mistake will ascertain that it will cost them at least double that amount to purchase a blanket of the same character at any store. The rule of the blankets is stated usually to be a nine gray. Many people are purchasing them for use in automobiles and to make coats and other articles with them as the woolen goods are scarce and expensive.

A \$250,000 Addition.  
The Newburgh Shipyard Company is planning a \$250,000 addition to its plant. A new plate shop will be erected on the site of the present steel fabricating shop. The new shop will be fitted with overhead cranes and modern machinery.

Business Bureau (Open Meeting).  
There will be a special meeting of the Business Bureau in their club room on Cornell street, starting at 2 o'clock. All the members are requested to be present as very important business will be transacted.

Addendum to Meet Local.  
By Telegram to The Freeman.  
New York, March 8.—East Cadogan and St. Lawrence local business men are planning to hold a meeting at the Hotel Hamilton on Wednesday, March 10.

## SHIPPING HARD HIT BY GALES

By Telegram to The Freeman.  
Boston, March 8.—Battered by heavy seas, the playthings of gales, three ships were abandoned by their crews and left to sink in the North Atlantic. Wireless messages today told of others in danger of being lost with all hands and coast guard cutters and steamers going to their assistance.

The list of disabled craft follows: United States Shipping Board Steamer Guilford abandoned 135 miles off Nantucket Shoals. Crew of 37 rescued by steamer Pocahontas. Transferred to United States destroyer Dale, which took them to Newport. Revenue Cutter Acushnet picked up the abandoned Guilford off the shoals.

Waterlogged, the four masted American schooner Eva Douglas, reported abandoned 300 miles off Delaware Capes. Crew of 12 picked up by United States Shipping Board Steamer Vassar.

United States Shipping Board Steamer Ellithorpe lost propeller. Swept by a 70-mile-an-hour gale towards rocks of Sable Island, N. S., but managed to get by the island without striking.

A steamship which observers believe to be the Collier Cape Breton, aground on shore of Catskill Island, N. S. Heavy seas are pounding her to pieces.

American steamer Lejos, carrying lumber from Jacksonville to Porto Rico, abandoned, waterlogged and sinking. Crew of six rescued by steamer Guthrie.

No word from U. S. Shipping Board steamer Bushrod, reported after 900 miles at sea Friday.

A steamer sent out S-O-S calls near Halifax, N. S. Steamer Marjorie, more than 1,200 miles to rescue. Now standing by Coast guard cutter Seneca put out from New York to assistance of steamer.

Cable from London reports the liner Maine encountering heavy gale 300 miles southeast of Irish coast with her rudder gone. Ships sent to her assistance.

Steamship Norfolk Range, tail shaft stripped and propellers disabled tossed into Portland, Me. assistance reaching her in time to prevent vessel being lost on ledge off Halifax Rock.

Oil tanker Tydol, ice coated put in to Plymouth, Mass. after strenuous trip from Bayonne, N. J.

By Telegram to The Freeman.  
Washington, March 8.—President Wilson for the second time within a week, today took a short motor trip.

The weather was a bit cold although the sun was shining brightly and the president asked Dr. Grayson to arrange for an early motor trip through the suburbs of Washington.

Wilmer Bolling, brother-in-law of the president, was also a member of the party.

The president appeared to be in excellent health and was chatting spiritedly with those in the party as they left the White House grounds. Cheers that went up from the bystanders were responded to by the president, who continually tipped his cap and smiled.

A swarm of secret service men gathered in front of the White House before the president's departure to prevent photographers from taking pictures of the president.

JUGO-SLAVIA AND ITALY MUST SOLVE

By Telegram to The Freeman.  
Washington, March 8.—The Adriatic controversy today rests upon whether the French and British premiers are willing to accept President Wilson's views. This was the belief here with publication of the president's last note on the Adriatic question to the allied premiers.

President Wilson's firm stand against the London treaty is believed here to leave the only way for settlement to the proposed direct negotiations between Italy and Jugoslavia. Should this conference fail, it is generally admitted that the result would be grave, but there is high optimism for the proposed conference.

Hotel Chamberlain Burned.  
By Telegram to The Freeman.  
Newport News, Va., March 8.—Several persons are believed to have been burned to death at old Hotel Chamberlain Sunday afternoon in a fire that destroyed the Chamberlain Hotel, two large arm warehouses and several other buildings, causing a loss of about \$2,500,000. The fire burned for several hours before the flames could get under control and many of the Chamberlain's guests, most of whom were from New York, lost all of their property.

Sam Thompson & Company, Inc., a domestic corporation has filed with the secretary of state an application for voluntary dissolution of the corporation.

## 5,952 MOTOR CARS IN ULSTER

Registration Figures Show Big Increase in All Classes Since 1918—\$27,400.86 Came Back For Highway Purposes.

Ulster county has 5,952 motor vehicles, one to every 14 inhabitants. Official registration figures just announced by Francis M. Hugo, Secretary of State, reveal the part the county has played during the past year in bringing New York state's total motor vehicle registration to 571,662, or a car to every 116 persons in the state. New York leads the world in the number of its automobiles, which increased 107,904 last year, or 23 per cent over 1918.

The records in Mr. Hugo's office show the following interesting figures from a motor vehicle standpoint for Ulster county: 4,310 pleasure cars, as compared to 3,622 in 1918; 917 commercials, an increase of 243 for the year; chauffeurs increasing from 1,191 to 1,524, the county receiving back from the state last year the sum of \$27,400.86 for highway purposes. The county has 280 motorcycles.

SENATE TO PROBE NAVY FURTHER

By Telegram to The Freeman.  
Washington, March 8.—Investigation of charges of inefficiency and lack of co-operation in the conduct of the navy during the war will begin shortly, according to plans being laid today by the sub-committee of the senate naval affairs committee which has been conducting a probe of the medal awards made by the navy department.

The investigation, like that of the medal awards, will center around charges made by Admiral Sims.

Publication today of the sub-committee's report on the investigation of naval medal awards in which republican members supported the views of Admiral Sims that awards were not properly granted and in which Democratic members defended the awards made by Secretary Daniels brought little surprise to official Washington.

U. S. D. SNOW TROUBLES.

Main Line Open, But Branch Still Blocked.

The March blizzard has caused considerable trouble on the U. S. D., especially through the mountains where big drifts have been encountered. The main line between Kingston and Oneonta is now open, and trains are running close to schedule, but the branch line is still blocked, and the snow pile was still high today trying to open the track through The Neck.

## MUSICAL TREAT FOR CHILDREN

Whether or Not It Can Be Given Is Up to Those Who Can and Should Subscribe to Symphony Society Without Delay.

The Kingston Symphony Society urges those intending to subscribe to do so at once. This is important, because on the number of subscriptions received within the next few days depends the success or failure of one of the pet projects of the society.

If sufficient funds are available a free concert for school pupils and teachers will be given in the afternoon. Whether or not this is to be done must be decided in a few days. Whether or not this educational treat can be given depends upon the state of the funds as determined by the number of subscribers.

Therefore everybody is urged to subscribe early, now, today, right away, at once. It is sufficiently definite and emphatic to be understood and acted on?

## ALLIED ARMIES FACE TURKS

By Telegram to The Freeman.  
London, March 8.—An allied army of 60,000 men is being concentrated at Constantinople and in adjacent Turkish territory, it was learned this afternoon. These troops are being massed at strategic points as a result of a unanimous agreement reached among the allies.

Units from fleets of the various allied powers are collecting in the Sea of Marmora with Constantinople lying within easy range of their guns. British troops in Egypt and Palestine are reported to have been ordered to Constantinople. Detachments of allied troops that were being held in the Near East are being moved closer to the Turkish capital as a result of the critical situation that has developed.

Home drafts in England are being held in readiness for service.

## BRITAIN TO PAY LOAN DUE IN OCT.

By Telegram to The Freeman.  
London, March 8.—Formal announcement that Great Britain will liquidate her share of the Anglo-French loan of 1915, due in the United States in October, was made in common this afternoon by Chancellor of the Exchequer Austin Chamberlain.

The total loan is \$500,000,000 of which Great Britain owes \$250,000,000. Mr. Chamberlain explained that Great Britain will utilize resources already available in the United States, and if these are insufficient gold will be shipped to make it up. Great Britain is already providing for liquidation by the purchase of Anglo-French bonds at a considerable discount.

VILLA AGAIN BUSY.

Train Burned, Passengers Slain or Robbed—American Prisoner.

By Telegram to The Freeman.  
Washington, March 8.—Attacking a passenger train near Chihuahua on March 4 and burning it after killing several of the passengers, Francisco Villa has proclaimed a new reign of terror along the Mexican border, according to advices reaching the state department today.

R. W. Black, an American salesman, who was on the train at the time, told James J. B. Stewart, American consul at Chihuahua, that Joseph Williams, an American engineer, was carried away as a prisoner for ransom.

All of the passengers on the train were either killed or robbed before it was set on fire and completely destroyed.

As the train was being looted and burned, Villa made a speech in which he threatened to attack other trains and enter towns at will.

A third American, Robert J. Pelletier, was in the train. Pelletier and Black were robbed.

New Commission Meets.

The special commission consisting of F. J. Lantry of New York, Judge Duval of Troy and Roscoe Irwin of this city, appointed by Justice Howland to try the claims of the Diamond Paper Mills of Saugerties and Martin Canine of Saugerties against New York city met this morning and the office of the corporation counsel of New York on Wall street and organized. Judge Duval was chosen chairman. Among the lawyers present were Justice Alden Chester of Albany, Byron L. Davis of Saugerties and F. E. H. Darrow, attorney for the Diamond Mills.

## NOTHING'S WRONG WITH KINGSTON

Finest City of Its Size Anywhere, Is Not Shipping And Has Fine Future Says Buffalo Writer—Faded Glory of Cremo And Five Year Old.

In Johnny Oldboy's J-a-z-z column of the Buffalo Sunday Times of March 7, appears an article relative to the late lamented Kingston census which is so breezy, optimistic and complimentary to our fair city that it may well cause all hands to stick out their chests again and blame it on the census takers, as does Johnny. Headed, "What's the Matter With City of Kingston? Nothing," the article says:

I lost on the 1920 population of the fine, historic city of Kingston—yes, Kingston-on-the-Hudson. I estimated the population would reach a total of 35,000.

Yesterday it was announced as 24,884.

A decrease of exactly twenty-four—yes two dozen persons less than the fine little city boasted of in 1910.

What's the matter with Kingston?

Nothing—Kingston is all right. Finest city of its size in the state, or United States, or the wide-world, in my estimation.

When I was a school kid the geography contained pictures showing winter scenery at Rondout-on-the-Hudson, one of the oldest little settlements in the state. It was a place I longed to see and years after when it was absorbed by the rival village of Kingston, just as our Black Rock was taken in by Buffalo, I visited it frequently and made up my mind that some day, if fortune smiled on me, that I'd make my home there.

Such scenery cannot be duplicated this side of the Swiss Alps. It nestles in the foothills of the Catskills; that most magnificent of all mountain lakes, Lake Mohonk, in the Shawangunk Mountains, is within easy driving distance, and the Hudson, at Kingston is wide, deep and lovely. Beautiful Rhinebeck and Rhinecliff, the abode of the Astors, the Morgans and other multi-millionaires is connected by ferry and until recently the old chain ferry was one of two, surviving pioneer days, in this country. The tide, 80 miles from tidewater, has a fall of two feet at Kingston Point, the prettiest and most popular summer resort on the famous and beautiful river.

Rondout bay and creek are picturesque. Kingston was the first capital in the state and the Old Senate House is one of the show places there. Several millionaires and multi-millionaires make their home there.

In the summer time Kingston's depot is a busy place, with its hundreds of train loads of people going to and from the Catskills. The roads are filled with touring automobiles, although Kingston, by reason of its steep hills and streets to correspond, is not an ideal place for automobile owners. Automobiles are not permitted to enter the fairland surrounding Lake Mohonk, the paradise sought by ambassadors, governors, senators and money kings in general.

Ten years ago Kingston was a boom town. It was the home of the nickel car called "Cremo." Remember it? Kingston was the greatest car manufacturing place in the country, many hundreds of men, women, girls and boys were employed in the Smith factories there and Smith's mansion was a show place.

Many millions were spent in advertising this popular price smoke; you could see the signs everywhere, if able to see anything.

Then the big factory was absorbed by the American Tobacco Company; they stopped advertising "Cremo" and people stopped asking for it and that is one reason, and probably the chief one, why Kingston's population has slumped a bit instead of growing.

Prohibition, too, has put the Strand in Rondout "on the bum" and how the natives will miss "Fischer's five year old," a famous and popular beverage all along the Hudson, in the vicinity of Kingston from the most popular as well as one of the prettiest public parks "Way Down East."

I like the people of Kingston—Rondout. I like the streets and hills and mountain peaks down that way; the climate is splendid, the scenery magnificent, there is less pretentiousness about that way than elsewhere; the little city spreads out splendidly; every home has a fine lawn, the trees are majestic, the streets clean and well kept; law and order prevail.

There are several fine industrial establishments there, ship building has revived perceptibly and I am inclined to believe that the census supervisor missed a lot of people down there.

I don't believe Kingston is slipping. I believe it has a fine future and will continue to grow and become more prosperous, more beautiful and more attractive as a charming residential city.

The more I see of Kingston the more I like it.

I'll cheer my banner—that Kingston's population has or ten years hence will total 35,000 to 38,000.

## TRAINS ARRIVING ON SCHEDULE

Trains on the U. & D. West Shore, O & W and Walkkill Valley railroads, after being hampered on Saturday and part of Sunday by reason of the snow drifts of Friday night, are running again on schedule time.

The train from Albany on the West Shore railroad that held up traffic all day Saturday, by reason of the pilot truck being thrown sideways when it struck a mountain of snow near Coxsackie, early Saturday morning arrived at the Union station here, Saturday evening about 8.20 o'clock. This was the first train in from the North since early in the morning. A train from Catskill was made up late in the afternoon with three coaches and no baggage car.

The U. & D. train that went up the line Saturday morning arrived back Sunday evening.

On the Walkkill Valley a passenger engine had its pilot truck twisted around at Montgomery on Saturday afternoon and the train and crew did not reach Kingston on its return until about 11.30 o'clock, Sunday morning.

Country roads are still blocked with snow in every section and people residing off the line of the railroads are badly in need of groceries.

## ACCEPTS WILSON'S MAIN POINTS

By Telegram to The Freeman.

The note was taken under consideration by Premier Lloyd George and the allied foreign ministers this morning.

Engagement Announced.

Mr. and Mrs. E. J. Myers of 120 Grant street announce the engagement of their daughter, Loretta May to Frank H. Reymor of this city.

The Coteries.

The Coteries met on Saturday afternoon at the home of Mrs. Ellis. Music was still the main topic and Miss Isabel Thompson had the first paper of the afternoon, her subject being, "Present-Day Concert Artists." She made special mention of the American girl who has arisen to fame, Carolina Lazzari, with the remarkably deep contralto voice; of Gail Curri, whose musical career has been so rich in every possible aid to the attainment of her art success; of Caruso; of McCormack, who comparatively recently learned the full value of his own voice; of Virgilio Lazzari, singing with the Boston Opera Company and of Bonci, the lyric tenor. The personal sketches given of these artists proved to be full of interest. The second paper, on "American Composers, MacDowell, Noyes and Others," was admirably presented by Mrs. Frank Thompson. The next meeting of the Coteries will be held on March 29th, at the home of Mrs. Waits.

ABOUT THE FOLKS.

## WILSON FINAL STATEMENT SOON

Two Letters Delivered To Hitchcock And Simmons Will Tell Senate There Is No Hope For Reservation On Article X.

By Telegram to The Freeman.  
Washington, March 8.—President Wilson has prepared a letter stating his position on reservations to the peace treaty. It was announced at the White House today.

The letter was written to Senator Hitchcock and was delivered this afternoon. It is understood that it will be made public tomorrow.

"The president's position will be plainly stated, for the benefit of the senate," it was stated. It is generally understood that the president refused to accept reservations to article X of the league of nations covenant.

The president has also prepared a letter for Senator Simmons, which states that his position on the treaty is set forth in the letter to Senator Hitchcock.

## STOCKS SOAR ON TAX DECISION

By Telegram to The Freeman.  
New York, March 8.—Prices went skyrocketing on the New York Stock exchange here today on the supreme court announcement that stock dividends were not taxable. The market was deluged with buying orders with brokers frantically trying to make executions at prices from 3 to over 30 points above Saturday's closing.

An erroneous report circulated earlier in the trading that the supreme court had ruled that stock dividends were taxable caused a falling off in some issues but prices quickly rebounded.

General Motors was most active advancing 3 1/4 points to 230. Crucible after selling off to 191 had a sudden jump to 210. Steel Common yielded to 95 1/2 but quickly rose to above 99. American Woolen fell to 112 1/2 and then made a sharp rally to 125. Baldwin Locomotive after yielding to 108 1/2 rose 3 points and U. S. Rubber rose over eight points to 106.

RHODE ISLAND'S ARGUMENT BEGUN

By Telegram to The Freeman.  
Washington, March 8.—Another attack on the constitutionality of the prohibition amendment and portions of the enforcement act was scheduled today in the supreme court, when argument was to be heard on the original proceedings brought by the state of Rhode Island to have the amendment declared invalid and its effect enjoined. Appeals from Kentucky and Massachusetts, where federal courts have sustained the constitutionality of the prohibition amendment, were also to be argued.

Elihu Root, acting as one of counsel for the United Brewers' Association also filed a brief with the supreme court attacking the prohibition amendment as unconstitutional in not having been legally ratified by three-fourths of the states, and commanding that questions raised as to its constitutionality are justiciable.

Wayne H. Wheeler, general counsel for the Anti-Saloon League, made application to file a brief in the Kentucky and Massachusetts cases.

ODDS AND ENDS.

The Missionary Society of the Ponckhockie Congregational Church will meet Wednesday evening at the home of Mrs. Mott. A paper will be read by Miss Mary Barnes.

## Sure Relief

## Be Boss of Your Heater

You control a Boynton Square Pot Boiler or Furnace. You needn't coax it, for Square Pots are never balky.

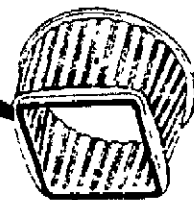

A few minutes in morning and again at night does the trick, unless the cold is unusually severe. Then give one extra stoking.

The square firepot—a patented feature—is built like a locomotive firebox. Your fire is all live coal, without ash or clinker. Gratebars operate with an even motion under the whole firebed.

Temperature is steady, neither too low nor unbearably hot. Anytime you need more heat quickly, you have a clean bed of coals and perfect draft.

Any dealer will tell you the whole story. Or write us today.

## FORTY YEARS A LIGHT KEEPER

James B. Murdock This Year Celebrates Anniversary of His Two Score Years' Service as Keeper of the Rondout Light—One of Most Efficient Men in Service.

This year marks his fortieth anniversary of efficient service as keeper of the Rondout Light, and James B. Murdock has recently received from the government the gold star and three bars which are to be attached to the sleeve of his uniform. The star denotes twenty-five years of efficient services, and each gold bar represents an additional five years. Keeper Murdock is not only widely known among the rivermen but is held in high esteem by his host of friends in this city.

Several years ago the government adopted the system of awarding efficiency pins to the light house keepers who were found to be most efficient in keeping their stations spick and span, and their equipment in first class working order. Of the few keepers in this district who were awarded a pin for the past year Keeper Murdock is one. But this is not the first time that he has been awarded the pin and given the privilege of flying the efficiency flag from the mast in front of the light house.

Keeper Murdock is a man who does not care to talk of himself, but his work speaks for itself. He was born in a light house and has followed that profession all his life. The light house at the mouth of the Rondout creek is the third light house he has resided in. Across the creek, and further inland stands the old light house which has been succeeded by the modern structure at the entrance to the creek. Just back of the old light house was the site of a still older light house, long since dismantled and torn down, and it was in that light house that Keeper Murdock first saw the light of day.

For nearly three-quarters of a century a Murdock has been in charge of the Rondout light. At the death of Keeper Murdock's father, his mother became keeper and held the position with the aid of her son, James, until she finally retired and he became keeper and has since held the position. Mrs. Murdock died about eleven years ago.

In the forty years that have passed Keeper Murdock has seen many changes on the river, and if he could be induced to talk of himself he could tell many a strange tale of river life, but he would much rather talk of other things. The light house itself speaks of the efficient care and pride that Keeper Murdock takes in his work. As he celebrates his fortieth anniversary in the federal light house service his host of friends wish him many more years of faithful and efficient service in the work in which he takes so much pleasure.

## ESTABLISHED RECORDS.

Harley-Davidson Crew Brought Back Mile Motorcycle Title.

On the ocean beach at Daytona, Fla., the Harley-Davidson racing crew which performed so brilliantly and successfully throughout the 1919 season, established a formidable list of new world's motorcycle speed marks and brought back to this country the world's one mile record, formerly held by an Australian rider.

The streak of record shattering began when Leslie Parkhurst established new marks for 1 kilometer, 1 mile, 2 miles and 5 miles, in the 61:00 cubic inch class.

Fred Ludlow, on a 75 cc. covered a kilometer in 21.75 seconds, a rate of 102.87 miles per hour.

Ralph E. King, in the 61 inch amateur class established new world's records for the following distances: 1 kilometer, 1 mile and 5 miles, averaging over 100 miles an hour in the 1 mile performance and bettering the old marks by a considerable margin.

A total of 22 new records were established, a larger string of new world's marks than has ever before been copied by one racing team.

## AUTO PLATES.

Should Be Secured Before Road Open Up.

By Telegraph to The Freeman.

Albany, March 8.—Automobilists should not wait until the first warm day of spring before applying for their plates. Thousands of cars are now tied up on account of weather conditions. It is expected that another rush will soon come and so Secretary of State Hugo is now asking motorists to apply for the necessary license plates and insure a quick delivery. Later on, the automobile bureau may again become congested with thousands of applications that will be filed as soon as the roads become passable. Those who want their plates and who have not already sent in their applications, should do so at once.

## Government Needs Many.

The need for stenographers and typists in the government offices at Washington, D. C., is most urgent. About 200 eligibles a month are needed. If five or more applicants will send their indication of taking the departmental examination, arrangements will be made for holding same in this city at any time. For detailed information consult the local secretary, Harry G. LeRoy, central post office.

## Prison Henry Here 18 Years Ago.

Eighteen years ago, March 7, 1902, Prince Henry, brother of the ex-German Kaiser, was in Kingston and was visited by a large number of people as the special train in which he was being taken from Albany to West Point, where he resided, passed through the town. Henry was accompanied by a large number of attendants, the train running very slowly, going through the yard by the station. There was much snow on the ground then, as there is now.

## NO MORE FREE SEEDS.

The effort to appropriate \$240,000 for the purchase of "free seeds" has failed, and so a time-honored institution has come to an end. From all accounts there will be no regrets and the only tears shed will fall on the floor of congress itself. Those supposed to be benefited most, the farmers, are said to have scorned the gift of a few seeds that might come up and might not, yet for years determined congressmen fought for the privilege of thus "complimenting" their constituents and until now were able to win in the fight.

The idea was not without point at the outset, but the business seems to have been sadly mismanaged. Seeds suited to the climate and soil of Maine went to Texas, and vice versa. Either seeds of long past seasons were unloaded on the government's purchasers in too many instances, or the purchases were allowed to die of old age in the government's vaults before the scoffing clerks mailed them to the addresses handed in by the ever hopeful congressmen. On the whole the undertaking was a failure and probably very few will now be sorry to see its end.

## TURKS OR BOLSHEVIKI?

The interesting news comes from Switzerland that a pamphlet written by Lenin, the Bolshevik dictator, asserts Russia's right to Constantinople and the outlet to the Mediterranean. Lenin demands to know why the Allies are deliberating on the future of a city "which belongs to Russia under a promise made by the Allies in 1915 as a recompense for the Russian effort in the war, and he declares the determination of the Bolsheviks to possess Constantinople even if they have to fight for it, thus unexpectedly returning to the policy of old imperial Russia whose ambitions were for generations balked by Great Britain.

The demands of the great war brought a change in British policy and in 1915 the Allies did promise the Czar possession of Constantinople. Then came the revolution and Bolshevik Russia not only dropped out of the war on the side of the Allies but indirectly at least served the interests of Germany. This of course freed the Allies from their promise, but this threatening attitude of the Bolshevik dictatorship may have contributed to the deadlock of conflicting interests dictating the decision to leave the Turks in Constantinople. The whole situation is a bit complicated, but it is open to question whether a Bolshevik Constantinople would be better for Europe, either politically or morally, than a Turkish Constantinople.

There are few industries in which the car shortage is felt so acutely as in the automobile plants of Michigan. The freight situation there is described as "critical," and it is predicted that many factories will have to shut down unless some measure of relief is found. Since the beginning of the year the railroads have been unable to furnish more than half of the cars needed to carry away the output, and practically every plant is notifying its customers that if they want the cars they will have to come and get them, in other words, drive them overland on their own power.

Normal storage facilities are limited to but one day's output of the plants, and emergency storage space of every sort has been pressed into service, but unless means are found for getting the cars to market production will have to be halted. Federal control of the railroads is directly responsible for the present situation. For more than two years very little freight has been paid to freight car proprietors, with the result that cars have been sold from engine to engine.

service twice as fast as new ones have been built to take their places. With the resumption of private ownership the country will see a rapid return to efficient railroading, a feature of which will be a supply of cars capable of handling the traffic.

## Important Question!

Will furniture prices be lower in the near future. We do not think so if ever. Wages generally have advanced considerably in this industry. Millions that were formerly spent for liquor will be spent for furniture, consequently making double the demand for this product.

BETTER FURNITURE IS BEING PURCHASED; and WHY NOT?

A man buys a car for \$3,000. Next year he sells it for \$2,000. He buys a dining room suite for \$500 and it lasts him for 50 years.

Why pay more for a car than a dining room suite? A woman pays \$150.00 for a gown which lasts for 6 months. The same amount invested in a beautiful cane mahogany davenport, lasts for 25 years.

Clothing has advanced 164 per cent; furniture only 96 per cent. Don't be afraid to purchase now for immediate needs.

Have you seen the mahogany finish, single four-poster beds that are selling for \$38.00? Don't wait until prices get lower. You may not have the money to buy with then.

## SOLDIER BRIDES MOSTLY FRENCH

War Romance Roll Shows 3,000  
Captivating Girls From That Land  
Surrendered to Doughboys—4,881  
Married Many Haces.

Latest returns show that while the tank soldier overseas trailed the fascinating daughters of our sister republic very consistently, comparatively few, on returning to their native land, imported a French bride to startle the family breakfast table with a flow of Doughboy French-English when the milkman brought nothing but milk.

In the Home Sector, the ex-soldiers' weekly conducted by the former editorial council of The Stars and Stripes, Walter J. Wood gives this information about the best souvenirs of all: "Up to the present no one has known how many Yanks did marry French girls, nor just how many little barishnas were taken captive in the far-off snow-wilds of Archangel and Vladivostok, nor to what extent feminine Britain fell before the young Lochinvars from the west. The journalistic wags who made Paris laugh have put the number of the A. E. F.'s human trophies anywhere from 10,000 up—one as high as 100,000—although in the absence of any accurate official figures, most of them have agreed on 10,000 as a good guess.

"It is interesting, therefore, to know that the war department, after having spent a great deal of time getting on its bride-searching armies beyond the seas, is now able to announce that until the first of this year 4,831 members of the A. E. F. were married abroad—3,771 enlisted men and 1,060 officers—and that their brides were divided by nationalities as follows: French, 3,059; British, 1,448; Luxembourg, 88; Belgian, 75; Italian, 40; Russian, 24; Swiss, 6; Polish, 4; Greek, 5; Dutch, 4; Roumanian, 4; Spanish, 3; Serbian, 3; Jugo-Slav, 3; Czech, 1; unknown, 14; German, 46."

### AT THE THEATRES

Princess Quartet at Keeney's—Stock Company Very Promising.

The Princess Quartet will be presented at Keeney's all this week, it being an organization of singers of international reputation. The repertoire includes numbers from opera to humorous hits which they will sing at every performance and the programs will be varied and also changed a number of times throughout the week. An auspicious photograph program has also been arranged for this week. Tonight Mrs. Charlie Chaplin (Mildred Harris) in "For the Children" a Lois Weber photo-play production a story of the great temptations that every woman knows—played by one of the most famous screen actresses before the public and staged with a lavish hand. Tomorrow, Princess Quartet, a story of three days' "fina" with Mabel Normand, in which this dainty star outdoes her role in "Mickey." It's a treat for the youngsters as well as yourself.

"The Lamb and the Lion" starring Willie Rhodes will be presented at the Auditorium tonight. It is the story of a girl who waited among a band of thieves. Also Ann Little and Jack Nixie in the "Lightning Bryon" episode three. Tomorrow Bryant Washburn in "The Way of a Man With a Maid."

Although the Chicago Stock Company have only been in town a few hours they have already broken the record for scenery and stage effects. It took the Hornbeck Express company all morning to transfer this equipment from the sixty foot baggage car at the station to the stage of the Opera House and now every available inch of space on this capacious stage is filled to accommodate it. The engagement opened today with a production of "Upstairs and Down" the famous society comedy by Frederic and Fanny Hatton. This play will be repeated tonight and judging from the advance sale of seats when the curtain arises tonight at 8:15 every seat in the Opera House will be filled. Tomorrow matinee and evening the offering will be William Collier's successful comedy, "Nothing But Lies." It provides two hours of good hearty laughter and one of the best and clearest comedies written in recent years. Seats for the entire week are now on sale at the box-office.

## WAITER TEACHES JOACHIM LESSON

By Telegram to The Freeman.  
Berlin, March 7.—(Delayed.)—Prince Joachim, sixth son of the ex-emperor, was given a lesson by a waiter in Germany's new democracy today that would have earned him a five year prison sentence for lese majeste two years ago. The prince, who had figured in a wild scene at the Adlon Hotel on Saturday night when he and a party of friends hurled crockery at members of the French mission because they did not rise when the orchestra played "Deutschland Uber Alles," again appeared in the dining room and appealed to Herr Seisser, the head waiter, for a "good table."

"Sorry, sir, but you cannot be served here," replied the waiter. "What's that?" roared Prince Joachim.

"You know what it means," replied the waiter. "You were responsible for what happened Saturday night. You will never be served in this hotel again so you need not come here. The waiters and cooks will quit work if we attempt to serve you."

Prince Joachim, very red in the face, departed hastily. Prince Joachim's wife, Princess Marie Auguste, is now suing her husband for divorce because of his wild night life and his many escapades like that of Saturday night.

Herr Seisser in explaining the incident afterwards, said that the employees of the Adlon had a "workmen's council" like the rest of the German business houses and that they were regulating affairs.

### SOVIET ATTACKS.

On Roumania and Poland Are Reported.

By Telegram to The Freeman.

London, March 8.—According to Central News dispatches received today from Copenhagen and Berlin, Russian Soviet armies have opened offensives against both Roumania and Poland.

The Central News correspondent at Copenhagen reported that 150,000 Russians had crossed the Dniester river, but were defeated by the Roumanians.

Another Central News dispatch, from Berlin, said that the Russians attacked the Poles north and south of the Pripiet Marshes, but were repulsed with heavy loss.

### KNIGHTS TEMPLAR.

Conclave at Newburgh to Be Big Affair.

About 800 Knights Templar from Troy, Albany, Schenectady, Saratoga and northern New York are expected to attend the annual conclave of the grand commandery at Newburgh, June 21, 22 and 23. They will make the trip on the steamer C. W. Morse and while in Newburgh will make their headquarters on the boat, which has been chartered for three days. Apollo Commandery of Albany will be represented by nearly 200 and will be accompanied by Dorsey's Second Infantry Band of Troy. Roundout Commandery, No. 52, K. T. will be represented at the conclave.

### Referred to Judge Lyon.

The certiorari proceeding brought by the Ulster & Delaware Railroad Company against the town of Roxbury, Delaware county, has been referred to former Supreme Court Justice George F. Lyon of Binghamton, as official referee appointed by the appellate division. This is a certiorari proceeding brought to secure a reduction of the rate of assessment of the railroad's property in the town of Roxbury.

### Storm Hampered Justice.

On account of the severe storm which delayed all train service, people who had business before the regular special term of supreme court Saturday morning were unable to get in town and several important matters which were to have come up before Justice Nichols, were adjourned. There were a number of important out of town matters which were scheduled to be heard Saturday but the attorneys as well as their clients were held up by the trains.

### For Clove Road Fund.

Assemblyman Frank G. Jacobs of Cairo will introduce a bill in the legislature for an appropriation of \$100,000 for the completion of Kaaterskill Clove road. The section is four miles in length, running from Palenville to the top of the Catskill mountains at Haines Falls.

## MOVED ICE HOUSE A HUNDRED MILES

After the death of Oron Dennett, who was one of the pioneers in the natural ice business on the Hudson and the largest stockholder in the Jersey City Ice Co., of New Jersey, that company ceased its corporate existence. The various properties on the river were sold and their 35,000 ton house standing beside the N. Y. C. R. R. right of way on the dock at Stuyvesant Landing became the property of the Central R. R. Co. As the building was a menace to the railroad they employed Fred C. Burhans, an ice house builder, to demolish the house during the fall of 1919. After the building was dismantled the old lumber was bought by the Peekskill Creamery Co. Then Burhans and the same gang that demolished the house loaded the good lumber on a barge, took it to Peekskill and have built a six room ice house beside an artificial lake that the creamery company owns up in the mountain about a mile north of Peekskill near the state militia encampment grounds. Superintendent Lockwood, of the creamery company, has been filling this house during the past week with 20-inch ice of a very fine quality. The old Jersey Ice Co. house still exists nearly 100 miles from the point where it was originally built many years ago.

## DRIFTS ISOLATE RURAL N. E.

By Telegraph to The Freeman.  
Boston, March 8.—Completely isolated by huge ice drifts, hundreds of families in northern Maine, New Hampshire and Vermont today faced a food crisis as the result of the effects wrought by the suspension of all railroad and trolley transportation in that section.

Milk trains from the farming regions to the north have failed to battle their way through the drifts and this city is faced with a milk famine. Hundreds of passengers are reported today marooned aboard stalled trains.

The severe storms so far this winter have already cost New England \$50,000,000.

## CITIZENS BAND IS FORMED

The Citizens Band will be the name of the new musical organization which The Freeman of last Wednesday said was in process of formation. A meeting was held Sunday at which officers were elected as follows: President, Charles Wood; vice president, Harry McKinley; secretary, Charles E. Hoag; treasurer and manager, Henry Terpening; leader, Harry Malsenhelder.

The first rehearsal is scheduled for Sunday next at a place to be named later. The band is expected to number 35 musicians.

The leader, Harry J. Malsenhelder, who will take the place of John M. Leopold, now in Poughkeepsie, is well known as one of the members of the 51st Infantry Band in its travels from Spartanburg, N. C., through France and Germany. All of the Kingston men who were in that band will be part of the new outfit.

Manager Terpening, at the meeting Sunday, signed a contract to furnish music for Rapid Hose Company of this city during the firemen's convention here June 15 and 16 next.

## GRAND BALL FOR HOME FOR AGED

Easter Monday City Will Dance To Raise \$1,000 Needed to Keep Home. What It Now Is—A Place Where Old People Know No Care Nor Worry—A County Institution and One of Best of Its Kind.

Four weeks from tonight, Easter Monday, April 5th, a grand ball will be given at the armory under the auspices of Company M and the directors of the Home for the Aged, the proceeds to be devoted to the use of the Home.

This institution has been open about a month and already all of the rooms have been taken, clearly demonstrating the fact that it was badly needed. The charter was granted to the Home by the State Board of Charities on the 13th of November last and work was rushed on the building as fast as possible and on the second day of February the dedication services were held, an account of which was published at the time in The Freeman.

At the time the work was commenced no one had any idea of what it would cost to fix over the house which had been so generously donated by Herbert Carl. One thing led to another, all of the walls and ceilings had to be replaced, a new heating plant was installed, electric light and plumbing fixtures had to be changed, many partitions were removed and new floors put down and the entire house painted. But when the work was finished it was in such condition that it was truly a Home for those who were to occupy it, as can be testified to by all who have been fortunate enough to inspect it.

At the time the organization was perfected a sufficient sum was pledged to insure its maintenance for five years and all the bedrooms were furnished by various people. Some money was also raised for repairs, but on account of the high cost of labor and materials and being obliged to buy many things to furnish the house outside of the bedrooms, the managers of the Home will need about \$1,000 now and this they hope to make at the dance on Easter Monday night. They believe that there ought to be at least 500 people in the county who will be patrons at this dance, the tickets being \$5, which also makes them a member of the association, and there ought to be at least 25 who will become life members, the cost of which is \$100.

No institution has ever been started in the county that has appealed to the general public as much as has this. The wonderful outpouring of their generosity at the time of the dedication party is still fresh in the minds of all, when 1,200 people came to the Home and gave something for the support, comfort and maintenance of the old folks, who through no fault of theirs were to inhabit it and if some of those who came could drop in the Home now they would see how much it is appreciated.

It might be well to let the public know just what this institution is as it seems there are a great many people who have an erroneous impression of it. It is just what it is called, a Home for the Aged, a real home, one free from care and worries. It is non-sectarian. When one enters its doors as a resident they are asked to forget all their worries and leave them outside, for never again, it is hoped, will they have reason to worry. Some have asked what is done for them. The answer is everything. They are clothed and fed, when they are sick they are nursed and attended by a physician, entertainments are provided for them, church services held during the winter months and when they die they are buried, all the expenses from the time they enter until the time they leave being provided by the management. It is one place where money is not needed and where asked in return is that they turn over everything they have on entering and abide by the rules and regulations. If anyone has more than the entrance fee, they are allowed the interest on the same above their fee for their own personal use. One has to be 70 years of age and unmarried and a resident of the county for five years immediately preceding their admission. It is truly a county affair for among the 12 inmates are people from Saugerties, Ellenville, Olive and Rosendale.

The management is truly fortunate in having secured Mrs. J. J. Davis as matron. Her constant ambition seems to be to make everyone happy and comfortable, and how well she succeeds can best be seen by anyone entering the house, as there is a constant atmosphere of sunshine in every heart as well as every room in the building. Her husband ably assists her and helps look after the comfort of the guests. Mrs. Minnie Smith, the assistant matron, is also the right person in the right place and looks after the preparation and cooking of the food, both of the women devoting their time to making this the best Home of this kind in the state.

John B. Schoonmaker is president of the board of directors, and Mrs. George Hutton, president of the board of managers. With two such persons at the head of the institution there can be but one word as to its future and that is success.

It is hoped that this dance will be a financial success and if any one desires to contribute without waiting to be called upon, they can send their contribution to Frank B. Threlkeld, treasurer of the Home, 21 Broadway, or to Mrs. Frederick W. Warren, treasurer of the board of managers.

## 125 Members Here.

So far this year only 125 people have been admitted to the Home. The last to obtain a license was Mrs. J. B. Callahan of 27 Green street.

## ROMANS ROLLED UP 50 POINTS

Saturday evening two real games of basketball were played in the city league at the Y. M. C. A. In the first game the Olympics defeated the Trojans 19-8.

This game was the fastest that has yet been played in the league. With a tribute to play and the score 8-8, Winters grabbed a horse shoe from somewhere and with a wild one-handed throw dropped in a field goal.

Both sides struggled hard for the supremacy over the other, but luck was with the Olympics.

Schoonmaker, too, made a fluky shot when the ball hit the railing of the balcony and dropped down through for a basket.

The score stood 7-6 in favor of Trojans at the end of the first half.

## CAN JACKSON REPEAT TONIGHT?

By Telegraph to The Freeman.  
New York, March 8.—Two boxing bouts of more or less international importance are scheduled for the present week.

Tonight, at Jersey City, Johnny Dundee and Willie Jackson, the only boxer who ever knocked Dundee out, will meet at the Arena A. C. in an eight round bout that promises lots of action.

Friday night, at Toledo, Ohio, Jimmy Wilde, the clever British flyweight, will defend the world's title against Frankie Mason, of Fort Wayne, Ind., who claims the American flyweight title.

It was slightly over three years ago that Willie Jackson bobbed up from obscurity at the old Olympia A. A. in Philadelphia and knocked out Dundee in the first round. Since that bout the rivals have met several times but Dundee has failed to square accounts by knocking Jackson out and the latter has failed to repeat the performance that earned him a reputation over night.

The feeling between the two is intense, however, and both will strive to deliver a terrific punch tonight. Jimmy Wilde will have an opportunity to prove his class against an opponent of his own weight when he meets Mason. The Fort Wayne boxer is a legitimate flyweight and the articles of agreement stipulate that he must make 105 pounds for Wilde.

## MEETING HELD SUNDAY

And Plans for Proposed New \$25,000 Club House Were Discussed.

Sunday afternoon at Congregation Agudas Achim on West Union street a meeting was held of those interested in the erection of the proposed \$25,000 Hebrew club house, and it was decided to hold another meeting the coming Sunday afternoon. Plans are under way to carry on a campaign to raise the necessary funds, and it is expected that the money needed will be raised.

## Jazz, Cause of Storms.

"Too much jazz, that's what causes all these blizzards," says Michael Delaney, who has been Moravia's weather prophet for sixty years. "I have predicted weather for sixty years and last fall predicted one of the hardest winters on record," he said. "The cause was that the upper air currents were heavier than normal and this was brought about by the large number of social dancing with bands and orchestra this winter. Musical vibrations help to keep the air heavy, bringing down the storm clouds. It is an old proverb that the picnic and the thunder shower are usually found together."

## Coffee—The World-Wide Drink!

Coffee is the most popular beverage of every nation. It has won this world wide popularity by sheer might of merit solely because it appeals to a natural rather than an acquired taste.

Wherever man is—there is coffee. Whether it is after the midday siesta in tropical climes or way "up yonder" in the land of the midnight sun, it cheers, soothes, sustains, satisfies and makes the problems of life less complex.

Americans consume more coffee than any other nation—more than a billion pounds annually. True American coffee lovers find in REYNOLDS' RELIANCE COFFEE

that delicious, appetizing flavor that years of their final approval. Years of experience have given us the knowledge of how to procure the world's best varieties that we may produce an even, distinctive blend. In our warehouses RELIANCE is aged until it is mellowed to meet the approval of the most critical connoisseur. Our scientific method of preparation removes the bitter chaff from the bean, making RELIANCE as healthful as it is flavorful.

Remember to ask for RELIANCE. It is always fresh at your grocer's—guaranteed to please or your money back. The Wm. T. Reynolds Co., Inc., Poughkeepsie, N. Y.

## GRAND BALL FOR HOME FOR AGED

Easter Monday City Will Dance To Raise \$1,000 Needed to Keep Home. What It Now Is—A Place Where Old People Know No Care Nor Worry—A County Institution and One of Its Kind.

Four weeks from tonight, Easter Monday, April 5th, a grand ball will be given at the armory under the auspices of Company M and the directors of the Home for the Aged, the proceeds to be devoted to the use of the Home.

Mrs. Minnie Smith, the assistant matron, is also the right person in the right place and looks after the preparation and cooking of the food, both of the women devoting their time to making this the best Home of this kind in the state.

John B. Schoonmaker is president of the board of directors and Mrs. George Hutton, president of the board of managers. With two such persons at the head of the institution there can be but one word as to its future and that is success.

It is hoped that this dance will be a financial success and if any one desires to contribute without wanting to be called upon, they can send their contributions to Frank N. Fowler, treasurer of the board of directors, or Mrs. Frederick W. Wayton, treasurer of the board of managers.

## ROMANS ROLLED UP 50 POINTS

Saturday evening two real games of basketball were played in the city league at the Y. M. C. A. In the first game the Olympics defeated the Trojans 19-8.

This game was the fastest that has yet been played in the league. With a minute to play and the score 8-4, Winters grabbed a horse shoe from somewhere and with a wild one-handed throw dropped in a field goal.

Both sides struggled hard for the supremacy over the other, but luck was with the Olympics.

Schoonmaker, too, made a ducky shot when the ball hit the railing of the balcony and dropped down through for a basket.

The score stood 7-6 in favor of Trojans at the end of the first half. The score:

	FB.	FP.	TP.
Trojans.	1	0	2
Dolson, f.	1	0	2
Goldberg, f.	1	0	2
Schoonmaker, c.	1	0	2
Strubel, f.	1	0	2
Beeres, g.	1	0	2
Total.	3	2	8

The second game was between the Romans and Athenians, and was won by the Romans with a 50-19 score. Connelly, Rowland and Johnson did the scoring for the Romans. The score:

	FB.	FP.	TP.
Romans.	7	9	14
Connelly, f.	7	9	14
Rowland, f.	7	9	14
Johnson, c.	7	9	14
Ierb, g.	7	9	14
Harris, g.	7	9	14
Port, g.	7	9	14
Total.	25	0	50

	FB.	FP.	TP.
Athenians.	1	0	2
Albrecht, f.	1	0	2
Meeker, f.	1	0	2
Moore, f.	1	0	2
Thompson, g.	1	0	2
Moore, g.	1	0	2
Total.	6	0	12

## CAN JACKSON REPEAT TONIGHT?

By Telegraph to The Freeman.

New York, March 8.—Two boxing bouts of more or less international importance are scheduled for the present week.

Tonight, at Jersey City, Johnny Dundee and Willie Jackson, the only boxer who ever knocked Dundee out, will meet at the Arena A. C. in an eight round bout that promises lots of action.

Friday night, at Toledo, Ohio, Jimmy Wilde, the clever British flyweight, will defend the world's title against Frankie Mason, of Fort Wayne, Ind., who claims the American flyweight title.

It was slightly over three years ago that Willie Jackson bobbed up from obscurity at the old Olympia A. A. in Philadelphia and knocked out Dundee in the first round. Since that bout the rivals have met several times but Dundee has failed to square accounts by knocking Jackson out and the latter has failed to repeat the performance that earned him a reputation over night.

The feeling between the two is intense, however, and both will strive to deliver a sopping punch tonight. Jimmy Wilde will have an opportunity to prove his class against an opponent of his own weight when he meets Mason. The Fort Wayne boxer is a legitimate flyweight and the articles of agreement stipulate that he must make 105 pounds for Wilde.

## MEETING HELD SUNDAY

And Plans for Proposed New \$25,000 Club House Were Discussed.

Sunday afternoon at Congregation Agudas Achim on West Union street a meeting was held of those interested in the erection of the proposed \$25,000 Hebrew club house, and it was decided to hold another meeting the coming Sunday afternoon. Plans are under way to carry on a campaign to raise the necessary funds, and it is expected that the money needed will be raised.

## Jazz, Cause of Storms.

"Too much jazz, that's what causes all these blizzards," says Michael Delaney, who has been Moravia's weather prophet for sixty years. "I have predicted weather for sixty years and last fall predicted one of the hardest winters on record," he said. "The cause was that the upper air currents were heavier than normal and this was brought about by the large number of social doings with bands and orchestra this winter. Musical vibrations help to keep the air heavy, bringing down the storm clouds. It is an old proverb that the picnic and the thunder shower are usually found together."

# Coffee —

## The World-Wide Drink!

Coffee is the most popular beverage of every nation. It has won this world wide popularity by sheer might of merit solely because it appeals to a natural rather than an acquired taste.

Wherever man is—there is coffee. Whether it is after the midday siesta in tropical climes or way "up yonder" in the land of the midnight sun, it cheers, soothes, sustains, satisfies and makes the problems of life less complex.

Americans consume more coffee than any other nation—more than a billion pounds annually. True American coffee lovers find in REYNOLDS' RELIANCE COFFEE

that delicious, appetizing flavor that meets with their final approval.

Years of experience have given us the knowledge of how to procure the world's best varieties that we may produce an even, distinctive blend. In our warehouses RELIANCE is aged until it is mellowed to meet the approval of the most critical connoisseur. Our scientific method of preparation removes the bitter chaff from the bean, making RELIANCE as healthful as it is flavorful.

Remember to ask for RELIANCE. It is always fresh at your grocer's—guaranteed to please or your money back. The Wm. T. Reynolds Co., Inc., Poughkeepsie, N. Y.

Patented Facts: The London Lancet—that eminent medical authority states: "The effect of coffee upon the vital centers after a meal makes it valuable as an aid to digestion."
